GAS EXPLOSION IN MINE NEAR MURPHYSBORO FATAL TO MANY.

LOWER LEVEL BURNING

Catastrophe Occurred Soon After the Men Commenced Work This Morning.

BULLETIN, 3:10 P. M.
(Associated Press)
Murphysboro, Ill., Oct. 27.—One hundred and fifty men have been taken out of Royalton mine alive and it is now known that one hundred men are still imprisoned on the lower level. Two died after being taken out.

Royalton, Ill., Oct. 27.—One hundred or more miners have probably been burned to death in the Mitchell coal mine at Royalton, a town on the Iron Mountain railroad, eighty-six miles from St. Louis. Fire followed the explosion of gas on the lower level.

HAD GONE TO WORK.
Three hundred men had just gone to work when the explosion occurred. Half of the men who were in that part of the mine not touched by the flames escaped, while thirty bodies were taken from the lower level soon after the explosion.

HEAT INTENSE.
Because of the intense heat the rescuers could not reach the remainder of the men. Help has been sent from Murphysboro and Duquoin.
The explosion was distinctly heard here, although the mine is a mile away and everyone in the place went to the scene except the telephone operator.

The scenes there were distressing among those who had fathers, sons, brothers and others in the burning depths.

PROMINENT JURIST RETRURNS TO REPUBLICAN PARTY-GIVES REASON

JUDGE RAMSAY, WHITESIDE COUNTY CIRCUIT JUDGE, BELIEVES FACTIONS SHOULD BE REUNITED AND ADVISES PROGRESSIVES TO RETURN TO THE OLD PARTY.

Circuit Judge Frank D. Ramsay of Whiteside county, one of the most able jurists in the state, who two years ago became an influential member of the Progressive party has returned to the Republican fold, and he announced, in an open letter to the Morrison Sentinel, his intention to hereafter support the Republican party and its candidates. Judge Ramsay's letter is:

"Morrison, Ill., Oct. 26, 1914.
Editor The Sentinel:

Allow me to say through the columns of your paper that I intend henceforth to affiliate with the Republican party and to vote on November 3rd, 1914, for its candidates from United States senator down.

"I have been a faithful adherent of the Republican party all my life up to the time of the National Convention of 1912. At that time I felt that grave errors had been and were committed in the name of the Republican party that could only be corrected by the most decisive opposition. With thousands of my fellows I followed Mr. Roosevelt's lead and I have since that time voted and acted with the Progressives. For this action I offer no apology. I followed the leaders who thought it right to rebuke those who led us into the errors of 1912, and to protest the action that so nearly cost the Republican party its life.

No Room for Three.
"I am now, however, firmly of the opinion that there cannot be three

OVER ONE HUNDRED ATTENDED MEETING

REPUBLICANS DREW LARGE AND INTERESTED CROWD AT ELDENA.

SPEECHES WERE INSPIRING

Undivided Attention Was Given the Speakers Who Discussed Vital Issues.

A most enthusiastic meeting of republicans was held at Eldena Monday night. The meeting was held at the hall there and every seat in the house was filled and a number of voters stood throughout the talks, giving the speakers their undivided attention. It was conservatively estimated that there were more than a hundred present.

Committeeman W. Frank Preston called the meeting to order and introduced Attorney H. C. Warner, who presided as chairman of the meeting. Speeches were made by John H. Byers, Chairman Warner and States Attorney Harry Edwards. These were followed by the introduction of and short talks by the different candidates for county office.

Attorney William L. Leech of Amboy, Republican candidate for representative, was present and made a few remarks.

John H. Byers in his opening address discussed issues of a national character, such as the enormous increase in the appropriations, since the coming into power of the democratic party, the tariff, the creation of useless offices and commissions, raising the salaries of present officials, and other subjects, all of which are vital to the farmer and taxpayer.

Senatorial Merits.

Attorney Warner took up and discussed the merits of the three candidates for the United States senator from this state. He designated Raymond Robins as being a "single taxer" and told about his coming to Dixon two years ago, when he stated that his purpose was to bring about a betterment of social and industrial conditions and that under no circumstances would he ever become a candidate for any office. In less than two years he was back in Dixon asking them to

VILLAGE OF FRANKLIN SUES NORTHWESTERN

WANTS RAILWAY COMPANY TO INSTALL CROSSING GATES AT THAT PLACE.

ASK A DAILY INDEMNITY

For Failure of Company to Comply With Village a Ordinance Recently Passed.

The case of the village of Franklin Grove vs. the Chicago & Northwestern Railway Company was heard by Judge O. E. Heard in the circuit court today.

The suit was brought by the village to compel the railway company to build and maintain two lifting gates at street crossings where they intersect the railway company's right of way. The officials of Franklin Grove passed an ordinance compelling the company to build these gates and provided for an indemnity for each day following the time given for them to be erected. The company refused to build the gates and the village now brings this action to compel them to build the gates and pay the indemnity.

Attorney Clyde Smith represented the Village of Franklin Grove and Attorneys Morrison and Dixon & Dixon represented the railway company.

Late this afternoon the attorneys were still taking testimony.

Thoughtful political students concede his election with the entire Republican ticket.

The election judges of the first and second precincts of Dixon township announced this afternoon that the lists are far from complete; much of the uncertainty being due to the revision of the precinct since the last registration. GARDNER THREW ANOTHER SHOT AT UNITED STATES ARMY-NAVY

GIVES STATISTICS TO SHOW THAT OUR COUNTRY IS BADLY PREPARED FOR WARFARE EITHER OFFENSIVE OR DEFENSIVE —WILL KEEP UP HIS FIGHT, HE SAYS.

Washington, Oct. 27.—Representative Gardner of Massachusetts shot another broadside at the war and navy departments.

Mr. Gardner said that after a thorough investigation as he could make he felt convinced that a commission should be appointed immediately to take up the question of national defense.

Demands an Investigation.
"Nothing but an investigation by an independent commission will bring out the truth about our army and navy," Mr. Gardner said today.

"From official sources I have gained information which leads me to believe that we ought to have forty-seven fighting battle ships, built and building. Instead, we have twenty-eight real battle ships built and building; four scrap iron relics, and eight venerable survivors only a grade better. We ought to have 188 destroyers, built and building. Instead we have 69, but sixteen are too old and too small to amount to much of anything.
"We ought to have 39 fast scout cruisers, built and building. Instead we have as many as three. We ought to have as many submarines as any nation on earth to protect our limitless coast lines, yet in submarine strength our navy stands fourth among the world's navies.

GERMAN LINES BROKEN

Invaders Have Been Driven Back Onto German Soil—Allies On the Offensive.

(Associated Press)
London, Oct. 27.—The German line after six weeks of fighting, is said to have been broken and the invaders have been driven back on German territory. At other points the offensive has been resumed by the allies. The contest rages fiercely along the Franco-Belgian border.

CALAIS MUST BE TAKEN SAYS WILLIAM.

London, Oct. 27.—Emperor William has given his commanders orders that Calais must be taken. The battle along the entire front continues fiercely with no decision.

GERMAN CASUALTIES ARE EXCEEDINGLY LARGE

London, Oct. 27.—Nearly all of 5,000 Germans were killed or captured in the recent fighting along the River Yser. 2,500 dead Germans were found in a canal, says a correspondent in Northern France to the Mail.

AMERICAN OIL SHIP RELEASED AT HALIFAX

Halifax, Oct. 27.—The American oil ship Brindilla has been released following a protest from Washington.

Paris, Oct. 27.—The Kaiser, in a series of widely separated attacks, suffered defeats near Arrmentieres and west of Lens, where the Franco-British armies drove home counter onslaughts against the Germans.

Heavy losses were inflicted on the invaders in the fighting which was of the most furious description at all points of contact between the North sea and the River Oise.

Insist Lines Are Maintained.
The text of the official communication follows:

Declare Losses Are Heavy.

Tells Need of Torpedoes.

"We ought to have on an average about five torpedoes to each torpedo tube in our entire fleet. Most of our torpedoes are of problematical value in time of war, however, as three-quarters of them are of the old short range kind."

"We ought to have a large fleet of airships of Zeppelin and other types. Instead we have not a single one. We ought to have a large fleet of aeroplanes. Our aeroplanes are scarcely numerous enough to mention.

Urges Better Artillery.
"We ought to have better coast defense guns as powerful as the guns on the modern dreadnaughts of other nations, although this necessity is disputed. Instead we have guns whose range is less than a mile than the naval guns which may oppose them."

"We ought to have a mobile army of at least 500,000 militiamen, regulars and reserves ready to take the field at once after the beginning of war; but we ought to have 1,000,000 men within a few weeks. Instead we depend on 85,000 regulars and 120,000 militiamen and no reserves."

On the convening of congress in regular session in December Mr. Gardner will ask that a two days hearing be held on his resolution.

assist in electing him to the highest office in the state.

States Attorney Edwards confined his remarks to issues which confront the voters of this state. The great increase in the state tax, the larger appropriations, the standing the democratic promise to cut these out if they were elected to power, the creation of useless state jobs so that all who took an active part in the last campaign might be given a job in return for his services rendered.

At Scarborough Tonight.

ROCK RIVER ACADEMY BOYS WERE DEFEATED BY SCORE OF 25 TO 0.

Morrison, Oct. 26.—The Morrison high school football team defeated the Rock River Academy team of Dixon on the fair grounds gridiron Saturday afternoon by a score of 25 to 0. The Dixon boys played an excellent game but could make little progress against the clean machine-like playing of the Morrison team, on which every member played the part of a star. Long runs on both sides were features of the game, gains of from fourteen to thirty yards not being unusual.

The Dixon team held up their end splendidly until the fourth quarter, when they weakened and allowed Morrison three touchdowns in ten minutes.

Brand Whitlock Tells of Plight of 7,000,000 People.

Brussels, Oct. 27.—Nearly 7,000,000 people in Belgium face famine unless they receive help at once. The American minister to Belgium, Brand Whitlock, says that less than two weeks' supply of food remains in the cities, while conditions in the country are even worse. Germany disclaims responsibility for feeding the Belgians. Mr. Whitlock has had on hand only black bread for two weeks. One hundred soup kitchens are feeding over 100,000 of the needy in Brussels. Noblemen may be seen slipping into soup kitchens. Factories are closed. Many stores remain open, but have no business.

A NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Veg- etable Compound.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

MR. VOTER, REMEMBER:

The Democrats have DOUBLED the State tax.

They enacted a Tarrif Law which put corn and cattle on the free list. Since then millions of bushels of corn and millions of pounds of beef have been shipped into the U. S. to compete with the corn and beef raised by our farmers. This law caused a DEFICIT, so they placed a tax on incomes of over \$3,000.00 and raised FIFTY MILLION DOLLARS. There was still a DEFICIT and another Tax Law to raise ONE HUNDRED MILLION DOLLARS PER YEAR has just been enacted.

The Progressive candidate for U. S. Senator, Mr. Robins, formerly a free trade, free silver, 16 to 1, Democrat, believes in **Single Tax**. This means placing ALL TAXATION ON LANDS up to the amount of the rent.

Henry George, the father of the 'Single Tax Idea', on page 364 of his book, "PROGRESS AND POVERTY," says:

Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy,
Inexpensive but Unequalled

The prompt and positive results given by this pleasant tasting, home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will usually overcome the average cough in 24 hours.

Get 2½ ounces Pinex (50 cents worth) from any drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. This makes a full pint—a family supply—of the most effective cough remedy at a cost of only 54 cents or less. You couldn't buy as much ready-made cough medicine for \$2.50. Easily prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, chest or throat cold is truly remarkable. It quickly loosens a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent loose cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in guaiacol and is famous the world over for its splendid effect in bronchitis, whooping cough, bronchial asthma and winter coughs.

To avoid disappointment in making this, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

CALLS ROBINS FALSIFIER

Cook County Central Committee Denies It Is Supporting Roger Sullivan—Is for L. Y. Sherman.

The Republican Cook county central committee unanimously adopted resolutions endorsing the Republican nominees and declaring the statement of Raymond Robins that the organization was supporting Roger Sullivan to be untrue and without foundation. The resolutions, which were introduced by former Governor Charles S. Deneen, were as follows:

"Whereas, our attention has been called to the fact that Raymond Robins in his speech at the Coliseum, reported in the morning papers of the twentieth inst., charged that this organization is supporting Roger C. Sullivan, Democratic nominee for United States senator; and

"Whereas, this organization is loyally supporting the Hon. Lawrence Y. Sherman, Republican nominee for United States senator, and is affording no support whatever to Roger C. Sullivan, Democratic nominee for United States senator;

"Resolved, that we brand these statements, charges and insinuations made by Mr. Robins as falsehoods and call the attention of the people to the character of this candidate, who attempts to mislead and prejudice the minds of the voters by false statements of this kind to gain office and advance his own personal ambitions.

"No attention has been paid to many other misstatements of this candidate for public office, but this deliberate statement is so mendacious that the public should be informed of its true character and purpose."

SENDS PAY ROLLS ABROAD

Democratic Party Closes Factories and Gives Trade to European Business Men Before the War.

The Democratic tariff law proved a dismal failure long before the European war was declared on August 1. Gold was going out of the country in enormous quantities. Our trade balance changed from \$138,576,158 in our favor for the month of October, 1913 (when their tariff law went into effect) to a balance against us of \$11,345,606 for the month of April, 1914. Foreign goods poured in and American industries closed down. Our pay rolls were transferred to Europe.

DEMOCRATIC ECONOMY.

"These members of the cabinet . . . have asked us for \$42,765, 125.15 more than the corresponding Republican cabinet officers asked to administer their respective departments."—Representative Austin of Tennessee, in the House, December 18, 1913.

WANTS TO SEE UNION CARD

B. M. Chipfield Asks Mr. Robins and His Friends for Evidence That He Ever Was Miner.

As Mr. Robins has been boasting that he is a great believer in unionism and it has been urged that he is a member of a coal miners' union, B. M. Chipfield, Republican candidate for congressman at large, has offered to give \$100 to anyone who would show him a card issued to Mr. Robins by the United Mine Workers. Mr. Chipfield asked the following questions of Mr. Robins:

"When and how long did you work as a coal miner?"

"In what coal mine did you ever work?"

"Were you a top man, a coal miner or a company man? Were you a union or a nonunion coal miner?"

"What was the location and the number of the union to which you belonged if you claim you were a union coal miner?"

OUR BOYS and GIRLS

HER "LIFE" CLASS.

Just Keeps Things Moving When She Gives the Children a Party.

There is no day in the year, with the possible exception of Christmas and Fourth of July, that means so much to a child's heart as the birthday. Then, for a time at least, he or she is a persona grata and holds undisputed sway. At school clamoring mates emulate one another in the resounding slap or kiss, and at home personal tastes are remembered in the form of favorite pie or pudding. If there be a party—and what is a child's birthday without a party?—the youngster is the central figure around which the whole function revolves.

A nice old-fashioned "homey" party for little girls is easily managed. If they can bring their dolls or dogs, play "tableaux" or any of the time-honored games dear to children's hearts, all is well and they are happy. With the boys it is another and more difficult proposition.

"Bobbie has just had his birthday party," sighed one mother to another. "It was a very simple affair; just a few of the boys and girls in the neighborhood. Soap bubbles on the carpenter's bench under the trees, a few games, ice cream and cake. But there were 'unpleasantnesses'."

"Dorothy came up weeping, saying that Dick Waldron had pinched her, and a tiny little boy was so sorely beset by some of his companions that he ran home. I am sure there was no malice intended, but it does seem a vast amount of lubricating has to be done to have the children keep peace, and I am thankful it is all over."

The best "lubricant" where children are present is to keep host and guest so constantly employed that the shy and awkward ones are at once selfed with the holiday spirit and the irrepressibles have no chance to become boisterous. There should be a carefully mapped out programme of games, songs, marches and drills in which every child can take part. They join with infinite spirit in the catchy, breezy and popular songs or national airs.

Let one game grow out of another, a standing and running game alternating with a sitting one, that the children may not grow bored. Do not neglect action. Children do not care to sit still and "be told things"; they prefer to do them. Old-time games, such as London Bridge, drop the handkerchief, blind man's buff and Lydia Jones, are always popular.

If the weather be warm it is much better to have the fun out of doors, so spread the table under the trees. Supper is usually the climax and the easiest part of a child's party. It is the first hour that makes or mars; after that all is plain sailing.

Refreshments should be simple, digestible and daintily served. Novelties of all kinds score immediately. Each place can have its name card. If it be nothing more than a frosted cookie, with the youngster's initials outlined in chocolate, so much the better.

A tiny, inexpensive toy as a souvenir of the occasion will bring joy to the most sated heart, and if actively he rampant from the beginning to the end of the fete all must vote it an unqualified success.—New York Sun.

ROBINS MERELY A MENACE.

There is no contest in this campaign between the Republican and Progressive party. Progressive voters have returned to the Republican party in such numbers in Illinois, as in most other states, as to leave the Progressive movement destitute of practically everything but would-be managers and a few candidates.

In Lee and many other counties of the state, Progressive managers have had great difficulty in securing enough candidates to accept the regular nominations, and still greater difficulty in inducing elected member of the county committees to attend the county conventions.

Why, then, keep up the pretense that the movement is a political factor? Why pretend to believe there is any chance for the machine-made Progressive ticket?

Raymond Robins has no more chance to sit in the United States senate than the Socialist candidate for that office. His only contest is with the Socialist candidate to determine which shall have third place in the result.

Robins would receive no attention as a candidate but for the one thing which makes his candidacy of importance. That is the possibility that careless voters might give the single-tax candidate enough votes to enable Roger Sullivan to poll more votes than will be given to Lawrence Y. Sherman. Republican votes given to Robins weaken Sherman's chances of beating Sullivan. Democratic votes given to Robins deprive Sherman of voting strength that would help insure the defeat of Sullivan.

Neither democrats nor republicans who are opposed to Sullivan can afford to risk any votes on Raymond Robins. His single-tax record makes it impossible for any careful, thinking farmer or other property owner to give Robins a ballot and that alone insures the defeat of Robins. He is in effect merely a stalking horse for Sullivan. Every ballot he asks for ought to go directly to Sherman to help send to the senate a man who is as different from Sullivan as it is possible for one man to differ from another.

COUNTY SUPERINTENDENT OF SCHOOLS.

There is no use wasting paper and ink telling the voters of Lee county what a treasure they have in L. W. Miller, County Superintendent of Schools, and a candidate for re-election on the Republican ticket. They know that L. W. Miller is the best County Superintendent of Schools that Lee county has had in many years, perhaps ever, and they know, if they have read, that L. W. Miller, the Lee county superintendent, is famed all over Northern Illinois as one of the most advanced, successful and brilliant school superintendents in the state. His work stands out and speaks for itself all over the county. The fact that no one could be found who cared to oppose Professor Miller at the elections shows the esteem and respect that is entertained for his personality and his ability. County Superintendent Miller is a sample of what republican office holders are worth to Lee county. If you vote the straight republican ticket you will be voting for L. W. Miller. The children of Lee county need him and they will have him for many years to come, we trust.

EDWARD CAHILL, CITY COMMISSIONER.

In the selection of Edward Cahill to fill the vacancy in the city commission caused by the lamentable death of the late Martin J. Gannon, Mayor Brinton and the city commissioners have acted wisely and their action meets with approval among the people. Edward Cahill is the logical man to fill out the term of the late Commissioner Gannon. His appointment is a gratifying show of respect for the memory of the West End commissioner and also keeps up the standard of the commission in a manner satisfactory to all.

Ed. Cahill has as many friends as any one citizen of Dixon. Furthermore, and of more importance, he has the qualities necessary to make a splendid commissioner. Mr. Cahill is especially public-spirited. He is interested in all problems of public welfare. He is level-headed, broad-minded and eminently fair and trustworthy. The appointment is certainly satisfactory.

A SERIOUS BUSINESS.

Some people are always trying to poke fun at candidates. But some people would joke about their grandmother's false teeth, or make merry over a nutmeg.

One of the facetious references at this time of year is about the candidate's handshake. Now we rather like the candidate's handshake. It is a good, warm, sure-fire affair. And if it were not for the candidates, lots of fellows would never get to shake hands at all.

It is all right for candidates to be friendly. They ought to be. They are asking for favors, and any man seeking favors is expected to be friendly. It is perfectly all right for them to be useful, to help chop wood, to carry in coal, to give the corn huskers a lift, to say nice things about flat-topped biscuits and flat-headed children. Even in some states this fall candidates will not be censured for carrying along a complete toilet case, so that they can lend the fair voters a powder rag, a nail file, a hand mirror or a hair brush.

But it ought to be unlawful for a candidate to carry around jokes. A candidate's jokes are deadly. They ought to be prohibited under the pure

Politics and War

By WALT MASON

The land is full of candidates, the smaller ones and heavyweights: what are they toiling for? They cannot make the people pay attention to the

things they say unless they talk of war. Our bulwarks and our sweetest boons are valued less than rusty prunes, as topics of the day; the tariff and the income tax were both sent groggy to their backs, by rumors of the fray. In vain the orator uprears and tries to fill the voters' ears with tiresome politics; some fellow whispers, "The reports say Russia took a chain of forts, and crossed the river Pkylwyx." The whisper travels round the hall; in vain the orator may bawl about the flag that flies; the voters sit around and bet that Russia will be humbled yet, or just contrariwise. Once more the speaker wildly tries to hold the voters' ears and eyes, and yells about the trusts; but at the door a newsboy shrieks, "Oh, wuxtra! Denmark dares the Greeks," and then that meeting busts. The voters canter down the aisle and through the door in Maud S. style, an "extra" to obtain; and in the hall, depressed, alone, the orator lets out a groan that's charged with grief and pain.

VEST POCKET ESSAYS

Author of "At Good Old Siwash."
By George Fitch.

Andrew Carnegie is Exhibit A in two demonstrations—a poor boy's chance in America and the benefits of a high tariff.

When Andrew Carnegie was born, in 1835 in Dunfermline, Scotland, the event didn't cause a ripple in the town. His father was a poor man and pursued this avocation so successfully that at the age of 10 years Andrew was a bobbin boy, working for 20 cents a day.

Thousands of other Scotch boys have become bobbin boys, but they have generally made one fatal mistake. They have become bobbin boys in Scotland. Andrew was wise enough to come to Pittsburgh, Pa., before beginning to accumulate his straggling wages. He bobbed all day across the river from Pittsburgh and at night he looked up chances for becoming a millionaire. Just at this time oil was being discovered in great quantities in Pennsylvania and the chances of becoming the owner of a 30-cent farm with a million dollar oil well on it were very bright. Carnegie began to monkey in a small way with oil, railroads and steel. One good deed deserves another and as soon as he got one good deed he set about acquiring two more. Before long he was running a steel mill.

Many men have run steel mills and have worked themselves into an early tomb over the job. But Carnegie conceived the idea of hiring bright young men to do his worrying for him. Each year he made more steel and bought more steel mills. About fifteen years ago, just before the trust law and male-factor-of-great-wealth era, he allowed himself to be persuaded to sell his mills to the United States Steel Corporation. When this was done, Mr. Carnegie found himself out of a job at the age of 69 with only half a billion dollars between him and the poor house.

Since that time Mr. Carnegie has spent his time in a manful attempt to become poorer. He has built hundreds of libraries, has given Pittsburgh a \$25,000,000 technical school, has built a peace palace, and maintains a palace in New York on a street which is repaved every year. In spite of this he is not appreciably poorer. He has given away \$200,000,000, but the confounded interest keeps eating up his deficit.

Mr. Carnegie is a little, white-bearded man with Santa Claus cheeks and a hobby for peace. He would cheerfully give up all the money he made selling battleship armor to secure everlasting peace. In the meanwhile he is overlooking a bet by not filling Mexico full of libraries and schools. This would, in time, give one particularly vicious dog of war a terrible boot.

OFFICERS TO HELP IN CHARITABLE WORK

MAJOR WESLEY AND WIFE OF SAMARITAN ARMY ARE IN DIXON.

Major and Mrs. B. Wesley of the Samaritan Army have arrived in Dixon to assist in the annual distribution of food and clothing to the poor on Christmas. They have been in charge of similar work in many large cities where thousands of dollars have been required to meet the charitable needs. Adjutant and Mrs. Hartman will remain in charge of the local work in Dixon.

Rev. Stebbins of the Congregational church will speak in the Army hall, 92 Galena avenue next Saturday. The Army is rapidly proving its worth to the community and the co-operation of the public is greatly appreciated by its officers.

WILL ATTEND FUNERAL.

The members of the O. M. P. will attend in a body the funeral of Fred Boehme, which will be held from the German Lutheran church at 2:30 p. m. tomorrow.

SIZE OF BALLOT.

The ballot which will be voted in Lee county at next Tuesday's general election will measure 19 1/2 x 22 inches.

Food and drug act, on the ground that mildew is poisonous.

A candidate's jokes are the oldest formation known to geological humor. They belong to a lower strata than Chautauqua humor. Besides the damp, musty ones they drop on two or three voters together, they carry a pocketful of kiln-baked and sun-dried ones, that they drop into the cornered voter's ears, expecting them to produce a rattle that resembles a laugh. Candidates do not need jokes. We ought to impress upon them that running for office is a serious business.—Exchange.

CATTLE EMBARGO TO BE FORCED BY GUNS

One Indiana Breeder Stands to Lose \$20,000.

South Bend, Ind., Oct. 27.—Stock raisers of this county and of the adjoining counties of Laporte in Indiana and Berrien and Cass in Michigan are preparing to maintain a drastic quarantine against the ravages of the foot and mouth disease. Already thousands of cattle have been doomed. A number of stock breeders conferred with the St. Joseph county commissioners on plans to have all highways patrolled with armed men to enforce the quarantine imposed by federal inspectors sent here by the department of agriculture.

The federal officials fear a spread of the malady to other states unless the quarantine is strictly enforced until herds which show infection are wiped out. Michigan has supplied men to patrol the stock farms, but Indiana's financial straits have caused it to lag in preventive measures.

Dr. Ulysses G. Houck, in charge of the federal force of veterinarians, proposes to quarantine all of Indiana unless its officials display greater activity in coping with the situation.

Breeders are only allowed meat value of stock killed, and as many have collected expensive dairy herds, the loss threatens to be heavy. Haven Hubbard of New Carlisle will lose nearly 1,000 head of cattle, hogs and sheep valued at \$30,000. He will get about \$10,000 for them.

WOMAN IS OVERCOME BY GAS

Mrs. Mary Hizar on Way to Funeral Found Unconscious in Hotel.

Chicago, Oct. 27.—Mrs. Mary Hizar, sixty-three years old, of Du Rocher, Ill., is in a serious condition at Henrietta hospital, East St. Louis, suffering the effects of gas which she inhaled in a room at the European hotel, East St. Louis. Mrs. Hizar arrived in East St. Louis Saturday night, en route to Belleville, where she expected to attend the funeral of her brother.

Thomas Romay, a brother of Mrs. Hizar, says that he believes his sister's accident resulted because she was not familiar with gas lights, and probably blew out the gas when she retired Saturday night.

JOBS GO BEGGING IN STATE CIVIL SERVICE

Good Scientific and Teaching Positions Are Vacant.

Chicago, Oct. 27.—Notwithstanding the rumors of extensive non-employment, there are a number of high class positions in the Illinois civil service that the state commission has been unable to find men and women to fill. Jobs paying \$200 a month are going begging.

In an examination for superintendent of capitol building and grounds, which pays up to \$2,000 a year, with living quarters, only one candidate passed, and he refused to accept the position. When another examination was held only four candidates passed.

A second examination for pharmacist resulted in passing grades for two people—not enough to fill the existing vacancies. An examination for food chemist, paying \$100 to \$150 a month, is scheduled for Nov. 7, but to date only a few applications have been received. The commission has been unable to furnish the state highway commission with junior engineers, who receive from \$70 to \$100 a month and traveling expenses.

The commission has also been unable to furnish teachers to the institutions at Geneva, St. Charles, Lincoln and Normal. Examinations were held in the spring, but hardly enough persons passed to fill existing vacancies. The principalship of the school at the Lincoln State School and College is vacant. The salary is \$75 to \$100 a month, with full maintenance.

A SURE WAY TO END DANDRUFF

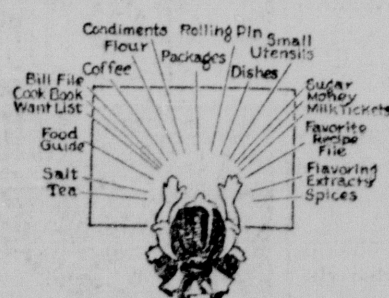

Stop Falling Hair and Itching Scalp—At Once

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it.

Your whole Kitchen is at your fingers' end in the "Hoosier" Cabinet.

You can sit down and work. You don't have to move around the room to the Table, Pantry, Cellar, and Cupboard. You have these and your base of supplies all in your "Hoosier"

TWO BOWLING LEAGUES FORMED

CITY AND Y. M. C. A. ALLEYS TO BE BUSY PLACES THIS WINTER.

Bowling promises to be a popular sport this winter and two leagues have already been organized for the season. A meeting of the city bowlers was held at the Brunswick alleys last night and a six-team league was organized. They decided to have three matches a week, on Monday, Wednesday and Friday evenings. The team captains and teams will be chosen later and a schedule will be drawn.

An eight-team league was organized at the Y. M. C. A. last evening and more teams may be organized later. They also will have three games each week, on Tuesday, Thursday and Friday evenings.

A schedule will be drawn for the team in the Y. M. C. A. league whereby each team will roll a match with each of the other teams and then the teams will be reorganized and the winning team will be banqueted at the expense of the losing teams. Instead of giving the winning team a trophy at the end of the season, those in charge of the tournament will give each of the five bowlers having the highest average in the league standing an individual trophy.

Look at the little yellow tag on your Telegraph. It will tell the exact date to which you are paid.

PRINCESS THEATRE, CHICAGO.

There are many reasons why "To-Day," the vital and vivid drama of New York life by George Broadhurst and Abraham Schomer, now established at the Princess theatre, Chicago, for a long run, warrants description as the biggest dramatic success of the season. Things happen in it, happen tumultuously and surprisingly, continue to happen until the final curtain leaves the auditor tense and mentally, at least, gasping.

That play has a good claim to be worthy drama that is a leaf out of life. "To-Day" is. Unwelcome as is the truth, those who look open-eyed at metropolitan life know that the conditions portrayed in "To-Day" are not impossible. Nor are they exaggerated. "To-Day" is a transcript of the kind of life that is not uncommon and that is not decreasing.

Students of the theme of the betterment of the race have seen several plays produced under the direction of a medical society. If there were a vast organization for relieving the feminine half of the human race of the menace of the clothes mania that society would give its hearty endorsement to "To-Day."

In the case of the misguided Lily Wagner, her husband cures her of the craze that has soiled her life by killing her, but seeing "To-Day" and thinking about it will suggest a less dramatic cure.

One of the chief problems of every day life in the cities and in many small communities is how to induce women to dress according to their incomes. Talk to any thoughtful dressmaker and she will tell you, unless you show unmistakable signs of the mania yourself, that the grip of clothes upon her patrons is appalling.

There is a remedy. Lily might have learned to shop intelligently or to make her own clothes of most of them. So she might have filled her closets with frocks that were pretty and suitable, and by such simple means the awful tragedy of her life would have been averted.

"To-Day" is a moral play. Lily Wagner died for her love of clothes. Her fate cleared the vision of every woman in the audience as to the true value of clothes in a well-ordered life.

Dramatic Notes

FAMILY THEATRE.

Tonight's program at the Family is one that will especially appeal to the picture lovers. A feature film in two reels of "An Innocent Delilah" featuring Jane Novak, George Stanley, Robert Grey, George Holt, Karl Kennedy and Will Duncan will be shown. It contains a story of heart interest and will interest everyone. A comedy called "Wiggs Takes the Rest Cure," and the noted Hearst-Selig Pictorial will be shown. A few of the scenes from the Hearst-Selig are "Women Fleeing Belgrade when the Austrians Shell City; Treasure Ship Seeking Safety in Harbor; Western Crews Win National Race; Searching for Foreign Ships; Autos Make Furious Speed, and Elephant Dentistry."

AT THE OPERA HOUSE.

The two-reel feature, tonight is "Elsie's Uncle," a Victor drama that "three of a kind" could ever go to make "a pair" seems impossible, but you must remember you are not always playing poker. For instance, did it ever occur to you that the three, instead of being merely pasteboard playing cards, might be three flesh-and-blood men, and that the pair might be a happy, loving couple? Of course this causes all sorts of complications to arise, the outcome being that the aforementioned loving couple successfully escape the irate relative. A most interesting story all the way through. "The Dark Horse" is an exceptionally clever and interesting imp drama featuring Mary Pickford, one of the greatest stars of the picture world. "In the Danger of a Great City" is a Universal like comedy that you will not only smile but laugh right out at. There will be no pictures tomorrow night on account of a democratic meeting being held in the opera house.

PRINCESS THEATRE.

Tonight the Princess will show a splendid program in "The Tardy Cannon Ball," a Reliance feature with Eugene Palette, S. A. DeGraffe and Francella Billington in the leading roles. This is a great railway picture which the Reliance company has just completed and it will rival others of the same nature such as "Out in the Air," etc. "The One Who Cared" is a fine Princess film with Rene Farrington and Boyd Marshall in the leading roles. This is a story where an old country doctor sets his daughter right. The other picture is entitled, "All at Sea," a Keystone comedy full of laughs and ridiculous scenes.

A PAIR OF SIXES.

Cort Theatre—Chicago.

Seldom in the theatrical history of Chicago has any play scored such a tremendous success as "A Pair of Sixes," the original American farce by Edward Peple, which is now filling the Cort theatre to capacity every evening and on Wednesday and Saturday matinee. The Cort theatre is a playhouse noted for its new attractions and long runs, but it is breaking all its former records with "A Pair of Sixes." This play is now in its third month in Chicago, and there is no falling away of patronage, no lessening in size and enthusiasm of the audiences. Before coming to Chicago "A Pair of Sixes" enjoyed a run of eight months in New York, and naturally the Chicago success was expected. The play is clean, wholesome and bright notwithstanding the fact that it is one succession of explosive laughter from the time the curtain rises until the final line. The comedy is of the pure American type, dealing with business and with the domestic side of life, with just sufficient love-making to give it a tinge of romance.

The finest comedy cast ever engaged appears in "A Pair of Sixes." It includes Frank McIntyre, remembered as the star of The Traveling Salesman; May Vokes, star of When Dreams Come True, and The Quaker Girl; Ethel Jackson, star of The Merry Widow; Sam Hardy, star of Stop Thief; Richard Ling, Oza Waldrop, Elise Scott, James Galloway and a dozen others.

The Trey O' Hearts

Bundled, hair suffocated, unexpectably dismayed and bewildered, the broncho swung round, back to the blast, and refused to budge another inch.

Himself more than half-dazed, but still hounded by his nightmare vision of Judith, Alan dismounted to escape being torn bodily from the saddle by that hellish sand-blast, and seizing the bridle sought to draw the horse on with him.

He wasted his strength in that endeavor: the animal balked, planted its hoofs deep in the bog, stiffened its legs and resisted with the stubbornness of a rock; then, of a sudden, jerked his head smartly, snapped the bridle from his grasp and flung away, scudding before the storm.

Pursuit was out of the question: indeed, the bridle was barely torn from his hand before Alan lost sight of the broncho.

For a moment he stood rooted in consternation as in a bog—with an arm upthrown across his face.

Then the thought of Judith returned.

Head bended and shoulders rounded, he began to forge a way into the teeth of the sandstorm.

How long he fought on, pitting his strength against the elements, cannot be reckoned.

In the end he stumbled blindly down a slight decline and was abruptly conscious that he had in some way found shelter from the full force of the wind.

He staggered on another yard or two, breathing more freely, and blundered into a rough-ribbed wall of rock—some sporadic outcrop, he understood, whose bulk stood between him and the storm.

He thought to rest for a time, until the storm had spent its greatest strength; but as he laid his shoulder gratefully against the rock and scrubbed the dust from his smarting eyes he saw what he at first conceived to be a hallucination: Judith Trine standing within a yard of him, alive, strong, free.

He stared incredulously, saw her recognize him, open her mouth to utter a wondering cry that was inaudible, and come quickly nearer.

"Alan! You came for me! You followed me, through all this!"

He threw off her hand with a bitter laugh—that was like the croaking of a raven as it issued from his bone-dry throat—and in momentary possession of hysterical madness, reeled away from the woman and the shelter of the rock and delivered himself anew to the mercy of the dust-storm.

CHAPTER XLII.

Open Mutiny.

Though she had been schooled to hold the very name of Law in loathing unpeachable and to think of Alan as a mortal enemy and as one whose death alone could properly requite the cruel injury that had been done her father; and though the man himself had laughed to scorn her first involuntary confession of that love for him which now consumed her being with its insatiable fires, she swallowed her chagrin and followed him with the solicitude of one whose love can recognize no wrong in its object. Through all the remainder of that day of terror she was never far from his side.

With the meekness of the strong, she made herself his shadow. And she was now the stronger, for she had had more than an hour's rest beside the waterhole, which he had missed on the way of that rocky windbreak. Sooner or later his strength must fail him and he would need her; till then she was content to bide her hour.

It befell presently in starting fashion; she was not a yard behind him when he vanished abruptly.

But the next moment Judith herself was trembling on the crumbling brink of an abyss of depth and width indeterminate in the obscurity of the duststorm. Down this, evidently, Alan had fallen in his dizzy blindness.

She found him insensible, lying with an arm bent under him in a pose frightfully suggestive of dislocation. Yet when she turned him on his back and released the arm, he made no sign to indicate that the movement had caused him the slightest pain.

There was a slight cut upon his brow, a bruise about his left temple. She tore linen from her bosom, beneath her coarse flannel shirt, and with sparing aid from the canteen, washed the cut clean and bandaged it.

Then, seeing that the storm held with fury unabated, she rose, reconnoitered and returned to exert all her strength and drag the unconscious man across the dry bed of that ancient water-course and under the lee of its farther bank.

There, sitting, she pillowed his head upon her lap, and bending over him made her body an additional shelter to him from the swirling clouds of dust.

And for hours on end Judith nursed him there, scarce daring to move save to minister to his needs, bathing his fevered brow and moistening his parched lips and throat.

The European War.

After having had to witness many weeks of horrible warfare in Europe across the sea, many of our people have become much worked up by the terrible accounts of the conflict as published by the American press. This fact has had its result upon the people of this vicinity and from witnessing arguments on both sides for some time past, it strikes us as an excellent example of self-denial to refrain from discussing the war and the nationalities mixed into it at all. Much worse is it to commence an argument upon the subject with those who differ in their views from us.

We have a peaceful settlement here—a grand good country to live in, headed by as great a statesman as ever was born, enjoying peace and prosperity, so we should rejoice with our lot and consider ourselves lucky to be enjoying this freedom when so much of the world is suffering from conditions the very opposite. Our population is made up mostly of German and French descendants and therefore it behooves the people of this vicinity especially to refrain from discussing war, for in the heat of argument one is apt to gain the ill will of the other. In such an instance a great wrong is brought about by talking of the war. We are all neighbors together and citizens of this great country and let us not allow foreign strife to throw any dissension among us. Why not therefore, let us all resolve not to discuss the war at all, or

INDIGESTION, GAS OR SICK, SOUR STOMACH

TIME "PAPE'S DIAPEPSIN." IN FIVE MINUTES ALL STOMACH MISERY IS GONE.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what your eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath is foul; tongue is coated; your insides filled with the indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—a most marvelous, and the joy is it's harmless.

A large fifty-cent crate of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour upset stomach during the day or night. It's the quickest, surest and most harmless stomach doctor in the world.

at least not publicly, or in gatherings where many different views are liable to be brought forth and where so much danger lies in heated argument resulting and with no good to be obtained in the end. Instead, let every one of us pray for peace and hope that the Great Ruler of this universe shall grant that an early end may be wrought out of the present chaos and that peace and prosperity can be restored to those now at war. Let us join with President Wilson in his wish that the war be not discussed among us.

MOTHER! IS CHILD'S STOMACH SOUR, SICK

IF CROSS, FEVERISH, CONSTIPATED, GIVE "CALIFORNIA SYRUP OF FIGS"

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "Fruit Laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 10-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

BACKACHE IS A WARNING

DIXON PEOPLE SHOULD NOT NEGLECT THEIR KIDNEYS.

Backache is often nature's most frequent signal of weakened kidneys. To relieve the pains and aches, to remove the lameness when it arises from the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Here is convincing proof of merit. It comes from this locality. Mrs. J. H. Boehm, 906 Fourth Ave., Sterling, Ill., says: "We have used Doan's Kidney Pills off and on for years, and think they are the best kidney remedy to be had. Although I never had occasion to use Doan's Kidney Pills myself, I can confirm the public statement I gave some years ago in their favor. One of the family had trouble from his back and kidneys. The kidney action was irregular and his back hurt him. Finally, he used Doan's Kidney Pills, procured at Perry's Drug Store, and they gave him relief."

The above is not an isolated case. Mrs. Boehm is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Boehm recommends. 50c all stores. SLAYER OF GIRL
SUICIDE, BELIEF

South Bend, Ind., Officials Recall Finding Man's Body.

HOLD TWO THEORIES OF CRIME

"Dark Man" in Carriage Is Clew to Murder of Hazel Macklin—Drowned Man Discovered Soon After Girl's Disappearance—Victim Bore Excellent Reputation.

South Bend, Ind., Oct. 27.—In attempting to solve the mystery surrounding the murder of Hazel Macklin, the fifteen year old girl whose body was found in a vault in Island park, an abandoned picnic ground, Sunday afternoon, the police are following two theories:

First, that the man who murdered the girl on the night of Aug. 13, the day she left home, committed suicide by drowning in the St. Joseph river.

Second, that the murderer was a resident of South Bend and not a farmer, as was at first supposed; that he was about forty years old, five feet eleven inches in height, 165 pounds in weight and described as being rather dark and having a small mustache.

The finding of the body of an unidentified man in the east race of the St. Joseph river on Aug. 28, nine days after the girl's disappearance, is responsible for the first theory.

Man Seen by Girl.

This view, however, has lost considerable weight, because the description of the body does not tally with that given by an acquaintance of the girl, whose name is withheld, who claims to have seen the young woman step into a carriage driven by a man of the above description. The last seen of the couple was when they passed Ernsberger street at Vista avenue. This was about 7:30 p. m.

From Charles Miller, a mason contractor and uncle of the girl, the police have learned that she left her home about 6:30 p. m., Aug. 13, with the intention of meeting a farmer who had advertised for a girl to do light house work. She had previously arranged by phone to meet the farmer at the Spring Brook park car stop at 7:30, and from that point was to drive to the farmer's home.

Girl Was Religious.

The girl was a regular attendant at the Westminster Presbyterian Sunday school and not only attended the regular sessions but also all the church functions throughout the week.

The police are still searching for the telescope suitcase which she carried with her when she left her home, but so far have been unable to locate it, although every part of the island has been gone over. They planned today to question the girl's father, John Macklin, who lives at Hammond, Ind. and her mother, who has remarried and lives at Bremen, Ind., to learn whether they suspect anyone of the murder.

Red Flag Law Upheld.

EVAN L. REED
FIGHTER FOR GOOD GOVERNMENT.

FRIEND OF THE WORKINGMEN

Evan L. Reed, Progressive candidate for the legislature, is the type of man who should be elected for the making of laws. He has been in public life but not as an office seeker, all his life, fighting for clean politics and good government. He possesses moral courage of a high order and when he has made up his mind that he is in the right neither money, influence or popular disfavor can deter him. And time has always vindicated him in any fight that he has made. He has political visions and faith in the people and is "willing to kick the bricks" until the electorate work around to his way of thinking.

As an editor, student and manufacturer, he has familiarized himself with the needs of the people and knows what laws are required. His workingmen swear by him. As he can write as well as talk, the people of this district will know that they have a representative when he is sent to Springfield.—Sterling Standard.

Non-Progressives wishing to vote for Reed for the Legislature put a cross in your party circle and a cross opposite his name on the Progressive ticket, thus:

NAVAL BATTLE BELIEVED NEAR

Britain Expects Attack by Kaiser Off Belgian Coast.

ADVANCES SEEM CHECKMATED

Paris Reports That German Attacks Were Defeated With Heavy Losses Between North Sea and River Oise —Russians Claim to Have Taken Towns by Bayonet Charge.

England expects a general naval action between British and German fleets, probably off the Belgian Coast, says a London dispatch. German submarines have been active off the Belgian shores for a week.

Continued from Page 4

Between Armentieres and Lille, to the west of La Basse and of Lens, and to the east of Arras. This line is continued to the south by the line which already has been indicated in these official communications. During the fighting of recent days the enemy seems to have sustained considerable losses.

Russ Take Three Towns.
 Paris, Oct. 27.—Concerning the Russian situation the official statement says:
 "Russia—To the west of the Vistula and to the north of the Pilica river,

the Germans have been forced back on Lowicz, Skiersniewice and Rawa, which have been captured at the bayonet point by the Russians.

To the south of the Pilica, in the direction of Radom, there has been a lively engagement between the Russians and the Austro-Germans, who lost prisoners and cannon.

Drives Back the Austrians.

"To the south of Solec the Russian troops crossed the Vistula by main force, driving the Austrians back. On the River San and to the south of Przemyel there have occurred stubborn combats resulting favorably to the Russians. An Austrian column debouching from the Carpathians on Dolina (in Galicia, twenty-two miles to the south of Stry), was routed."

Battle in Galicia Continues.

London, Oct. 27.—Reports from Vienna indicate that along the battle line from the Carpathians to the Russian border, through Galicia, the fighting continues, but without any definite result. Petrograd claims that the Germans still are retiring from Warsaw in precipitate flight and that they are also evacuating Lodz. The Germans attempted to arrest the Russian offensive movement at Sokhatchoff, but were dislodged from their positions there with heavy losses.

Vienna's Official Statement.

A dispatch to Reuter's Telegram company from Rotterdam gives the following official statement issued in Vienna:

"A telegram dated Sunday noon from the northeastern theater of war says Austrian and strong German forces have taken a position in a nearly uninterrupted line from the northern spurs of the Carpathian mountains by way of Stry and Sambor before the fortress of Przemyel, to the Polish part of the Vistula and to the district of Plock, against the main army of the Russians, who have been reinforced by troops from the Caucasus, Siberia and Turkestan.

"The Austrian offensive across the Carpathians attracted strong hostile forces.

"In the middle of Galicia, where both armies occupy fortified positions, the battle is stagnant.

"Northeast of Przemyel and on the River San the Austrians have had several successes.

"In Russian Poland strong forces are facing one another. Since yesterday there has been fighting north of the Vistula between Ivangorod and Warsaw."

Cargoes for Neutrals Must Be Properly Consigned.

SPRING-RICE IN STATEMENT

British Government's Position on Contraband, Declares Its Envoy, Is That Laid Down by U. S. Supreme Court in 1863 to Which England Complied With Great Loss.

Washington, Oct. 27.—Sir Cecil Spring-Rice, the British ambassador, by instruction of Sir Edward Grey issued a warning to American shippers, through the state department, to consign all cargoes bound for neutral countries to the neutral government or a specific consignee. Two notes addressed to Acting Secretary Lansing say British cruisers will not interfere with neutral commerce when shipments are properly consigned. The documents specifically exempt cotton from molestation, although destined to belligerent countries, as this article is not contraband.

The second note refers particularly to the case of the tanker Rockefeller, recently released by the British government, but states the general policy of Great Britain on the subject of contraband. The text in part follows:

of the present war has shown the immense importance of the motor, the air ship and the submarine, all of which are consumers of mineral oil. I may add that there is reason to believe that mineral oil in all its forms may be used for these purposes.

Quotes U. S. Court.

"A large proportion of the exports of this country has been consigned to neutral ports and, according to evidence in our possession, has been transmitted from them to a belligerent country. As you are aware, the supreme court of the United States in 1863, considered vessels as carrying contraband, although sailing from one neutral port to another, if the goods concerned were destined to be transported by land or sea from the neutral port of land into the enemy's territory. It then decided that the character of the goods is determined by their ultimate and not their immediate destination, and this doctrine was at the time acquiesced in by Great Britain, though her own trade was the chief sufferer."

Brindilla to Be Released by England. London, Oct. 27.—The British government, convinced after an examination of the innocence of the destination of her cargo, has ordered the release of the American oil tank steamer Brindilla, which will be permitted to proceed to Alexandria. The question of the transfer of the vessel from the German to the flag of the United States will not be raised by the British government.
